-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The amendment filed 26 January 2005 has been entered.

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Claim 19 recites the limitation "polymeric peptides" in line 2. There is insufficient antecedent basis for this limitation in the claim.

4. Claims 15-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over List et al US 5,389,382. The claims are rejected for the reasons set forth in the prior office action mailed 24 August 2004. The prior art shows a process wherein the resulting solid active agent particles may be provided with a coating comprised of a conventional protein coating, gelatin.

5. Applicant's arguments filed 26 January 2005 have been fully considered but they are not persuasive. Applicants argue that the List et al batchwise operation disclosed by List et al has to be followed by filtration to separate any coarse particles and this shows that the teaching in List et al would not lead to fine particles with uniform size without further steps. However applicants claims do not incorporate limitations relating

to uniform size. No evidence of criticality has been presented. Absent a showing of unexpected results supported by scientific and or clinical data no distinction is seen between the mixing process of applicants' and the mixing process of the prior art of record to provide particles or cores coated with conventional coatings.

6. Claims 15-25 are rejected.
7. Claims 1-14 have been canceled.
8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
